

RESPONSIVE DESIGN

Publishing Service

Publishing Services

DigiWorld Creative provides a wide range of exquisite services and solutions to the world-wide publishing service providers and Publishers. These services are supported by the expert technology and operations team. DWC production services incorporated the complete range of Pre-media services from data conversion to delivering files to printers

Editorial Services

DWC has an excellent team of editors who are well versed with copy editing, technical editing, and substantive editing. We are proficient in a variety of widely accepted style standards and adhere on to the client-specific or author-specific style guidelines. We prepare a style sheet for every project we handle, which is approved by the client before implementation. A single copy editor typically edits the entire book so that consistency is maintained throughout the project. Copy editors have experience in handling a variety of content in different domains.

Some of the content types handled by our editors are:

- ☛ Academic and scientific
- ☛ Commerce, marketing and management
- ☛ Finance and Trade
- ☛ Humanities and social sciences
- ☛ Linguistic
- ☛ Mathematics
- ☛ Medical and health related

Conversion Services – XML Services

DWC provides a full spectrum of XML services to address the demands for digital formats and online publishing requirement for content repository and multi-device capabilities. We are having the capability to manage complex workflows.

Some of the services offered by our team are:

- ☛ Customized XML, MS-Word, or TeX/LaTeX-based editing
- ☛ Customized style sheet according to customer's DTD
- ☛ Specialized quality control tools
- ☛ Delivery of XML at page proofs, revisions, issues, or at any other stage
- ☛ Generation of XML files based on publisher's DTD
- ☛ Conversion from one DTD to another
- ☛ Typesetting from XML files including auto-pagination in 3B2
- ☛ Providing solutions in other formats such as HTML and ASCII

Composition Services

DWC provides composition services for both print and electronic media. The quality and reliability of its services are reflected in the fact that it produces more than 10 k pages monthly. DWC has knowledge and expertise in managing all the different workflows. It does full-service composition in an XML environment for convenient print and online delivery.

Our composition services are:

- ☛ Typesetting from manuscript.
- ☛ Data capture and conversion.
- ☛ Editorial services comprising of technical editing and copy editing.
- ☛ Design and graphics services, including scanning, file conversion, redrawing and relabeling of artwork.
